

great battle between the constitutional authorities who assert that the senate is without authority to deny the oath to any person who bears valid credentials and possesses the qualification enumerated in the constitution and the authorities who contend that the senate may bar a senator-elect at the door for any reason whatever.

Whether Smith and Yale are allowed to take the oath depends almost entirely on the success that attends efforts to win over a number of southern Democratic senators.

LITHUANIA ASKS
LEAGUE TO BACK
ITS NEUTRALITYAccuses Poland of Plot to
Force War.

BY HENRY WALES.

(Chicago Tribune Press Service.)
GENEVA, Dec. 4.—Augustinas Wal-
demaras, premier of Lithuania, an-
nounced tonight to defend his country's
neutrality against Marshal Pilsudski,
minister of Poland. He will demand
that the league of nations take mea-
sures to prevent Poland from attacking
Lithuania. The league council will
meet in sessions tomorrow.

"We have documents — proof that
the Polish general staff prepared de-
tailed plans to invade Lithuania, over-
throw the government, and occupy the
country last month," said Pre-
mier Waldemaras.

There still is danger of war, as
said a Lithuanian official pointed out,
not from Lithuania. We consider
ourselves bound by the treaty of Su-
balt, signed in October, 1920, when
Lithuania and Poland agreed to settle
all disputes in a legal way.

Poland has 600,000 troops.
I ignore Marshal Pilsudski's per-
sonal attack on my life. His animosity is due to the
fact that he wants Lithuania united
with Poland and we never will con-
sent to that.

Marshal Pilsudski said Lithuania
mobilized its entire army, which
amounts to 200,000 troops, but that is
false. It is a state secret—for the
number of men we have under arms
is only approximately 40,000—
said Premier Waldemaras, who is a
stump, youthful, earnest, convincing
man wearing a black cutaway like a
scholarship boy.

Waldemaras explained that Lithu-
ania has maintained a state of war
with Poland since Gen. Lucien Zelig-
sky, Lithuanian minister of foreign
affairs, was shot in the back by the
Polish government several years ago. The
Lithuanian government does not desire to
resume relations with Warsaw until the
Vilna question has been definitely and
justly settled.

Wants Lithuania Neutralized.
"Marshal Pilsudski wants the league
of nations to force us to renew diplo-
matic, economic and commercial rela-
tions, thereby recognizing as fait
accompli the status quo of Vilna in
Poland's hands. We never would do
that," the Lithuanian dictator declared.

"Lithuania and Vilna should be
placed in a special category, like Swit-
zerland, with the neutrality recognized
and guaranteed. In compensation
Lithuania is ready to promise never
to enter alliances with any foreign
states or neighbors, but make identi-
cal friendly treaties with Poland, Rus-
sia, Latvia and Germany, all on an
equal basis. Further, we are ready to
agree that the league of nations ap-
point an international commission to
control our foreign relations and pol-
itics."

M. Waldemaras will reply before
the league council to Warsaw's ac-
cusations that Polish school teachers
have been placed in concentration
camps.

"This is absolutely untrue, and I
am ready to let the league send impar-
tial investigators to Lithuania to es-
tablish the truth," said Premier Wal-
demaras. "Also we will let the league
investigators examine our charges
that Lithuanians are persecuted in
Vilna and the adjoining region by Po-
land, violating the minorities agree-
ment."

"In October about 100 men held a
so-called congress of Lithuanian emi-
grants at Riga, when the Polish min-
ister and Polish military attaché par-
ticipated, promising funds and military
aid for an invasion of Lithuania. Our
information is that these men were
promised Polish troops not in regula-
tion uniforms, but masquerading as
Lithuanian emigrants, to attack us,
seize Kovno and occupy the country."

Keeps Him Talking on Phone
Until Police Overtake Him
Mrs. Payson L. Nussbaum, wife of a
physician, living at 25 East Walton
place, lost a valuable fan while attend-
ing the recent Arts ball. She adver-
tised for its recovery and Clifford Sa-
linger, 21, of 11339 Church street,
seized the opportunity to pester her
with telephone calls, she said. Finally
Mrs. Nussbaum called the police and
they arrested the youth last night
at 1844 street near the Rock Island
tracks while he was being kept in con-
versation on the telephone by Mrs.
Nussbaum, who had arranged with po-
lice to trace the call and capture him.

Briand Bids Russia to Take
Place in Europe's Councils

GENEVA, Dec. 4.—M. Briand,
the French foreign minister, made an-
other move today to secure a united
continental Europe. He employed all
his persuasive forces of statesmanship
to induce Russia to stay actively in
the European concert.

He received both Maxim Litvinoff
and M. Lunacharsky of the Russian
delegation, and, with M. Paul Bon-
cour, the French Socialist, at his side,
he participated in the disarmament dis-
cussions and earnestly voiced the hope
that they would be the precursor of
further international collaboration.

Another question which M. Briand
broached to M. Litvinoff was Paul Bon-
cour's plan for a continental security
pact, with Russia included, believing
that this would immensely improve
the chances of success of the disarmament
conference. The Russians, it is
understood, gave indications that they
contemplated additional cooperation
whenever possible.

"When it came to lending a helping
hand to improvement of Russo-British
relations the French foreign minister
met with stony ground. Both M. Lit-
vinoff and Sir Austen Chamberlain
expressed willingness to see
each other, but neither apparently was
ready to assume the responsibility of
proposing an interview. Diplomatic
niceties or apprehensions threatened
to render sterile all attempts of third
parties to bring them together.

"We have no diplomatic relations
with Great Britain," said the soviet
spokesman. "Hence there is no rea-
son why Russia, even though only rep-
resented by the vice foreign minister,
should take the initiative for a meet-
ing with the British foreign secretary."

This was one of the busiest days of
his career for M. Briand. One by one
the statesmen and diplomats of Eu-
rope entered his study for crisp half
hour talks. After luncheon with Sir
Austen and Lady Chamberlain, M.
Briand received the Russian delegates,
then Gustav Stresemann, the German
foreign minister, and after him Dr.
Eduard Benes of Czechoslovakia, and
many others, including Foreign Min-
ister Zaleski of Poland, M. Politis of
Greece, and Sig. Sclafani of Italy.

A categorical denial that Poland is
prepared to resign from the league un-
less the council succeeds in arranging
a resumption of diplomatic relations
with Lithuania was made today by
the Polish delegation.

The report that Poland would re-
sign her seat in the league reached
Geneva from Berlin sources, and
stated also that Poland would insist
on unqualified recognition of Polish
sovereignty over Vilna.

A high official of the Polish dele-
gation said today that his government
believed the state of war which
Lithuania insists still exists between
the two countries is in contradiction
to the league covenant and therefore
should cease.

COMMUNISM WILL
CONQUER WORLD,
STALIN PREDICTS

MOSCOW, Russia, Dec. 4.—As-
serting that "communism will con-
quer the whole world," Joseph Stalin,
head of the communist party, has re-
iterated his determination to reach no
compromise with his political op-
ponents, of whom Leon Trotsky is a
leader.

Speaking before the communist con-
gress in two sessions yesterday, M.
Stalin pronounced an "unmistakable"
the opposition's latest move to dissolve
its factional organizations and sub-
mit to the decisions of the congress.

while reserving the right to defend
his views. He demanded that the op-
ponents of communism recognize their
mistakes and reveal their secret or-
ganizations in order that the congress
might destroy them.

"Either the opposition will do this
or it can seek a second party for it-
self," Stalin said.

Little Things That Count

A pair of Cuff Links is a Christmas Gift
to be prized always!

THE details of a man's appearance are the
really important items of his dress. If he
is careful about the little things the big things
naturally take care of themselves. This is why a
good looking pair of cuff links is so all important
to the well dressed man.

Peacock cuff links, smartly conservative, always
in good taste, are an indication of refinement.
Their beautifully etched designs are worthy of a

session and a meeting will be held today. More than a week ago advertisements were printed in the county papers calling for persons with information about vice to appear before the grand jury. The stories of the responding volunteers, it was said, formed the picture that brought on the general cleanup.

Capone Won't Stay, He Says.

Capone indicated that his stay in the vicinity of Chicago would be short.

"Just a couple of days," he said, "and I'll be away on another trip. This dropping in doesn't mean there will be a lot of shooting and crime. All I want is a little peace and quiet. Crime—say, it's all wrong to give me the rap for what goes on. Crime goes on when I'm away just the same as when I'm here."

He and his cohorts were fully equipped for their trip to the big timber. The day before they departed they drove down to Marshall Field & Co.'s and exchanged a sum variously estimated at \$2,000 to \$5,000 for the latest suggestions on what the well dressed hunter should wear when taking a rest from the gang wars.

They're Stylish Duck Hunters.

Reports were that no better turned out duck shooters ever scratched their expensive leggings on the briars. If it rained, they were protected by waterproof coats and breeches.

Their marksmanship and the quality of their firearms was all right, too, it was said. Capone asserted that the bag included one bear and plenty of specimens of smaller game, furred and feathered.

The police yesterday continued their investigation of the shooting of George Druggan, a member of the family that gained notoriety when Brother Terry, a supposed prisoner in the county jail, had his teeth fixed day after day outside the walls. George stuck to his story that a rifle accidentally went off in his hands and the bullet struck him in the back. His brother, William, who took him to a hospital, was released on a writ of habeas corpus before Judge Emanuel Eller.

LILLIENDAHL JURY TO HEAR STORY OF WIDOW TODAY

(Picture on back page.)

May's Landing, N. J., Dec. 4.—(Special.)—Mrs. Margaret Lillendahl will take the stand tomorrow to testify in her own behalf in the Atlantic county court, where she and Willis Beach are on trial, charged with the murder of her husband, Dr. William Lillendahl.

Announcement that Mrs. Lillendahl would tell her story to the jury of five

women and seven men, from the same witness box where Beach on Saturday calmly denied knowing anything about the killing of the elderly physician and lawyer was made today by Charles M. Phillips, her personal attorney.

Mrs. Lillendahl has insisted that her husband was slain by Negro hold-up men in a sandy lane off the Atsion road on Sept. 15 while he was out for an automobile ride with her. Word was brought from her cell through the bars of which she watched the storm this afternoon, that she faces her ordeal on the witness stand with confidence and with satisfaction at being able to get her own story of the killing on record.

Quake Forecaster Predicts Shocks in Europe Tonight

FAENZA, Italy, Dec. 4.—(AP)—Raphael Bendandi, earthquake prognosticator, predicts "seismic disturbances are imminent in the southern Europe, especially in the Mediterranean basin. Earthquakes will begin on the night of Dec. 5 and 6, the center being about 200 miles from Faenza, and shocks will be registered at all observatories on Dec. 11, when the center is in northern Asia. Simultaneously there will be considerable shocks on the Pacific coast in South America, the Greek archipelago, and Albania."

RESCUE 48 FROM 2 SHIPS ASHORE IN ATLANTIC GALE

Four Sailors Perish as
Storm Harries Coast.

Norfolk, Va., Dec. 4.—(AP)—Twenty men were rescued today from the Norwegian steamer Ciba, ashore off Cape Hatteras, by life savers from the U. S. Navy and Coast Guard.

Four members of the Paraguay crew were rescued last night while the ship was battling a northeast storm sixty miles off Cape Hatteras.

The Paraguay went ashore shortly after daybreak, while half a dozen life savers were searching for her further shore in response to repeated calls for help.

Coast guardsmen with the life saving station managed to launch a life boat and set out for the wreck. Several attempts were made before the boat could get close enough to the ship to take off the men.

The skippers, who were among those rescued, said the four others were rescued on board last night. They were working at the pumps in an effort to keep the ship afloat until some of the remaining vessels arrived, and were carried over the side by a huge wave.

Gale Sweeps Atlantic Coast.

New York, Dec. 4.—(AP)—A sleet storm, driven by a northeast gale and accompanied by freezing temperatures, swept the north Atlantic coast today and tonight, raising havoc with shipping.

STORMS RAGE IN EUROPE

LONDON, Dec. 4.—(U. P.)—A hurricane on the Atlantic, a terrific ice storm on the Caspian sea, heavy rains in various parts of the continent, and two earthquakes in Spanish Morocco endangered thousands of lives today.

More than 1,000 sailors and fishermen were marooned on 200 ships in the ice locked Caspian sea and heavy seas were felt for their safety.

A terrific storm had swept across

FALLS FROM HORSE

MARY ROGERS.

Hollywood, Cal., Dec. 4.—(AP)—Mary Rogers, 13, daughter of Will Rogers, film actor and humorist, suffered a broken wrist yesterday when the horse upon which she was trick riding before a movie camera shied, throwing her to the ground.

The girl, according to dispatches from Astoria, Ore., was taken to a hospital.

The Valencia wireless station intercepted a message from the Danish steamer Atlantic, en route from Scandinavia to Boston, which told of heavy seas, driven by a hurricane, sweeping the deck. The message said huge waves had destroyed many of its lifeboats. It requested that ships in the neighborhood communicate immediately.

Lloyd's tele of Wight wireless station reported receiving an S. O. S. Saturday from the French steamer Montmorency, in distress in the Mediterranean for the second time within a week.

A Lloyd's dispatch from Cadix said the German tug Seetake had gone to the Montmorency's assistance. Dispatches from Villa San Jurjo, Spanish Morocco, said two earthquakes had been felt there within half an hour. Damage was slight, first reports indicated.

A heavy snowstorm at Logrono, Spain, prevented movement of trains. Heavy rains on the Rhine district of France caused the river Rhine and several tributaries to rise to flood stage.

HUNT HUSBAND AS BOMB ROCKS HOME OF WIFE

A police search was started last night for Henry A. Grady of Montgomery, Ala., in connection with the explosion of a black powder bomb early yesterday at the home of his estranged wife at 435 Webster avenue. No one was injured by the explosion, which shattered nearby windows and aroused the neighborhood.

Search for Grady was begun after Mrs. Grady and her daughter, Mrs. Margaret Brooks, told their story to Capt. Thomas Condon of Hudson avenue police.

Mrs. Grady said that she recently left

her husband in Cincinnati, O., after he had abused her for upbraiding him for his conduct with other women.

"He threatened to follow me and kill me," she said. "He used to work in a powder mill in the south and knows all about explosives. I believe he's responsible for this bomb."

Police had at first suspected that the bomb was intended for Antonio Bermudez of the Webster avenue number, who is a chat at the Drake hotel. Bermudez declared he had no known enemies.

BILL ENTERTAINS IRISH BY ATTACK ON GREAT BRITAIN

Mayor Addresses Friends
of Free State in Boston.

Boston, Mass., Dec. 4.—(Special.)—"Big Bill" Thompson, mayor of Chicago, roused to enthusiastic pitch a crowd of approximately 1,000 members and friends of the American Association for the Recognition of the Irish Republic which conducted a mass meeting in Mechanics hall tonight to enable the mayor of Chicago to express his views on England and the English.

"Big Bill" said much in his unique manner, but it all boiled down to his campaign to put over four planks in both major political parties:

America first, farm relief, inland waterways, and national flood control. Incidentally, he wended a verbal bludgeon against King George and "Un-American supporters of the king."

"In Bill Thompson's make-up of heart and mind I have every reason to be happy to be here in Boston," he said. "I do not want to quarrel with your newspaper editors. Let's let them alone. I do not care how many falsehoods they print about Bill Thompson. You can't make the people of Boston believe any of these falsehoods any more than you can make the people of Chicago believe them."

He declared that he had been above a Boston editorial and asked if he did not think it ought to have a reply.

"I never answer editorials," said he. "They say, 'Ask Big Bill if England does not pay back her bills when other countries do not pay back their big bills,' or something like that."

"If I did answer it, I would say that

the federal government, not to my liking—that that has nothing to do with it—added to the constitution the eighteenth amendment and when this nation did, Great Britain put a bottle of Scotch out here about 500 miles long, 13 miles out, and liquor that used to sell for \$1.25 a quart is now selling for \$15 a quart.

Before Great Britain owed us any money there was no corner on the coffee, and coffee was then about just half the price it is now.

"Before Great Britain got a corner, rubber used to be about 14 cents a pound. Now it is about a dollar a pound. Who's buying it? We are. Who is getting the profit? Great Britain. Maybe if all the other nations who owe us money had the same privileges they would pay us."

CO-ED ON TRIAL TODAY AS ROBBER OF BANK IN TEXAS

La Grange, Tex., Dec. 4.—(Special.)—The federal government, not to my liking—that that has nothing to do with it—added to the constitution the eighteenth amendment and when this nation did, Great Britain put a bottle of Scotch out here about 500 miles long, 13 miles out, and liquor that used to sell for \$1.25 a quart is now selling for \$15 a quart.

At noon, Dec. 12, last, a slender girl who had gained access to the rear of the bank cage by posing as a newspaper reporter, pointed a pistol at employees and made away with \$1,000. At that time Mrs. Rogers was a stenographer in the office of Gov. Dan Moody, who was then attorney general.

QUIT U.S. BECAUSE HE WASN'T PAID, AMUNDSEN SAYS

OSLO, Norway, Dec. 4.—(Special.)—An unpaid balance of \$10,000 for lectures already delivered was Capt. Roald Amundsen's reason for departure from the United States last October, the famous explorer let it be known here today. He left the United States about the time he was preparing to deliver a series of lectures.

Capt. Amundsen will make known through his attorney in tomorrow's

newspapers that \$10,000 was owed to him by the American manager of his lectures, Lee Keadick, from his tour in 1924-25. Capt. Amundsen therefore refused to keep the new contract until this debt was paid.

Capt. Amundsen was to have received the Explorers' club medal at a dinner in October in the clubhouse at New York, when he suddenly sailed for Norway on the steamer Bergensfjord, without giving any explanation. Prominent men had been invited and Maj. Gen. A. W. Greely was to have made the presentation. The dinner was called off, a telegram having been received from Amundsen reading: "I am sailing today. Sorry I can't be with you."

Share Is Sought.

BY OSCAR HEWITT.

The Northwestern railroad has proposed to get its share of the traffic to the lakes-to-gulf waterway, with the completion of the Illinois section is promised in 1929. This plan is to receive the first barge commodities from the south which will haul to the northwest. The Northwestern has completed a freight house, the largest in the downtown section of any city. This will be in the area bounded by Wells and Kinzie streets, and its north branch, and a part of which will lie under the new warehouse of Marshall Field.

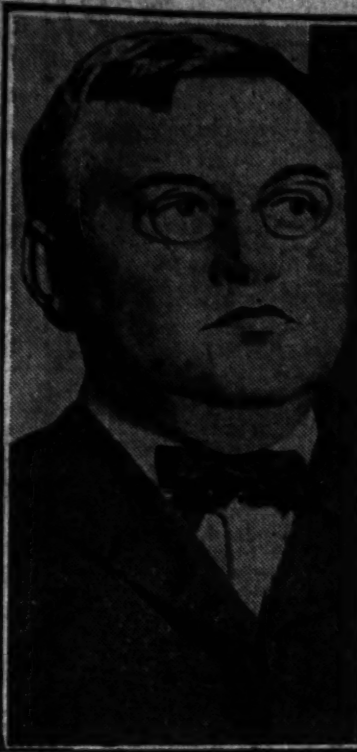

Four Water Services.

The river frontage is to be developed for four water services—for big lake lighters, vessels, barges and heavy service. At the point formed by the river and the north branch space has been secured for two tracks in proposed service. Loaded and empty cars will be taken to and from ferries to these tracks. The railroad with its principal terminal at 18th street and the new line at Erie street and to another at Water street and the river, and also the large warehouse just north of the mouth of the river. By this system the Erie claims it saves from two to three days in switching cars around Chicago to both the receiver and shipper. The Erie by this plan gains entrance to the north side which could not be obtained by land, except at prohibitive cost.

Plans Held Secret.

President Sargent of the Northwestern has withheld announcement of the plan along this line, except concerning the ferry facilities at the new north station on which about \$1,500,000 is to be spent. Of the dockage on the river east of the Franklin-Orleans viaduct, Marshall Field & Co. will have preferential use.

LEGISLATOR DIES

JOSEPH PLACEK.

JOSEPH PLACEK, REPRESENTATIVE FROM NINTH, DIES

Joseph Placek, 55 years old, member of the state house of representatives for the last 14 years, died yesterday, after a lengthy illness. He had been confined to the Chicago Fresh Air hospital since last June.

Mr. Placek was president of Chicago Turners hall and head of the Bohemian Turners of America. Recently he journeyed to Europe to preside at a meeting in Prague of the latter organization. Two weeks ago he was awarded a medal by Jaroslav Lipa, counselor of the Czechoslovakian legation at Washington, in recognition of his services in the cause of Czechoslovakian independence.

He is survived by a widow and thirteen children. Funeral services will be held tomorrow afternoon at the Chicago Turners hall, 3248 South Kodzie avenue. Burial will be in the Bohemian National cemetery.

Hauls Away Burning Car of Dynamite; Saves City

MEXICO CITY, Dec. 4.—(AP)—Dispatches from Cordoba, in the state of Vera Cruz, relate the heroism of Ignacio Espinosa, a railway engineer, who saved the city from possible disaster when he connected his engine to a blazing box car containing dynamite and sped out of the city. Two miles out he disconnected his engine and a few seconds later a terrific explosion occurred.

BURGLES ALARM FOUND FALSE

Police squads were sent to the Mallers building, 3 South Wabash avenue, early yesterday when a burglar alarm sounded. It was found that the alarm was accidentally set off by an employee of one of the firms in the building.

of a long space, according to the agreement between the railroad and Field's relative to air rights. This indicates that Field's expect to do some business via the water.

Field Freight Rights.

The agreement gives Field's certain freight platform space for its exclusive use and the plans indicate that cars will be unloaded on elevators which take the goods to the floor desired in the building above with one handling and no cartage whatever.

Another part of that air right agreement is a provision for placing the heating and power plants under certain tracks of the Northwestern railroad below the surface. Also below the surface, the plans of the Northwestern railroad provide for "cold rooms" to aid in preserving fruit and vegetables requiring a certain low temperature.

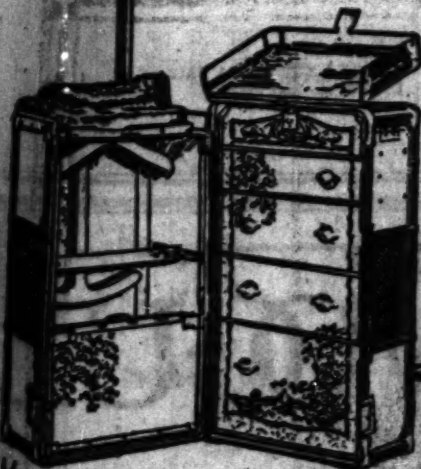

Still another angle shown on the plans is a connection with the freight tunnels under Chicago streets and the allotment of space for a future tunnel.

MOTHERS OVERCOME BY GAS.

Mrs. Elizabeth Kerr, a widow with three children, was found unconscious in the gas-filled kitchen of her home at 5151 Ridge avenue, Evanston, last night, and taken to the Evanston hospital by police. She is expected to recover.

NEW OUTER DRIVE EXTENSION WILL BE OPENED TODAY

Uptown Merchants to Hold
Luncheon Celebration.

(Picture on back page.)
Another link in the extension of the outer drive on the north side will be completed this afternoon, when the half mile stretch from Irving Park boulevard to Montrose avenue will be opened.

Preceding the ribbon clipping ceremonies a luncheon will be held at the Edgewater Beach hotel, under the auspices of the Uptown Chicago Business Men's association, of which V. J. Curto is president. Sixty north side civic groups will be represented, and David H. Jackson, president of the Lincoln park board; Edward J. Kelly, head of the south park system; Dr. John Dill Robertson, west park chief, and James Ward, president of the north shore park district, will speak.

The uptown merchants are given considerable credit for this latest Lincoln park development by Mr. Curto, who points out the organization's encouragement of legislation to grant the commissioners a more liberal bond program.

While grade separations have been constructed on the new drive at Irving Park boulevard and at Montrose avenue, to help speed up traffic, and additional correction will be made in changing the frequency of the traffic lights at Clarendon avenue, to clear east and west bound traffic, further relief, however, is needed, according to Mr. Jackson, who said that this will be attained when the drive is extended to Lawrence avenue.

USE TEAR BOMBS TO RECAPTURE 2 AND LIBERATORS

Tear bombs were used yesterday by the police squad to compel the surrender of six men who had barricaded themselves in a soft drink parlor at 2040 Elston avenue.

It was alleged that the owner, Charles Zia, had thrust a shotgun at two railroad detectives who were passing with two prisoners and so liberated the pair. The detectives called the police and when they arrived Zia refused to open his doors. But after two bombs had been tossed in six men came out.

Two of them were Joseph Lambert, 2028 Powell avenue, and Frank Milke, 2028 Holly avenue, who were taken from the detectives. The latter said the pair were breaking into a freight car when they were arrested.

ITALY MAY LOSE ITS MAJORITY IN SACRED COLLEGE

ROME, Dec. 4.—(AP)—Cardinal de Lai, secretary of the consistorial congregation, is in a grave condition tonight, and his death is expected hourly. Several times during the day he seemed at the point of death, and was kept alive only by artificial respira-

tion and oxygen. His sister, with whom he lives, is nursing him, and another sister has arrived from Verona. His secretary, Magr. Tondini, administers communion daily. In the event of Cardinal de Lai's death, the number of non-Italian cardinals in the sacred college will exceed the Italian cardinals by one. If he dies the respective figures will be 15 and 13 at the next consistory, when the pope will create five cardinals of other than Italian nativity.

The Gift That Came From Spauldings

Christmas Morning and the "presents" are being distributed.... the pleasure of anticipation prevails as ribbons are cut and wrappings are removed.... one package is opened and the box of Spaulding and Company is revealed.... then comes the thrill of expectation.... the certainty that here is a truly "WORTH-WHILE" gift.... eager fingers open the box.... joyous exclamations attest to the delight of the recipient.... then the gift is "passed around" to receive its tribute of admiration from family and friends.... such is the Gift "that comes from Spauldings"

Never a Christmas passes without some of the gift boxes being opened to disclose a Necklace of Pearls, a Bracelet gleaming with Diamonds and Precious Stones or a Ring which will be a family treasure from generation to generation.

Perhaps the box contains an admired piece of Silver or needed additions to the Table Flatware. In many homes the "Gift that came from Spauldings" will prove to be a Watch—a wrist or pocket timepiece or a dainty ribbon watch

Or it may be a delightful Gift of China, Glass or Pottery. Sometimes the "box" is a large one and conceals a Traveling Bag or a "Gift in Leather" chosen from these things which are so admired in the Spaulding Leather Section.

There are thousands of delightful Gifts at "Spauldings" ranging in price from a few dollars, which offer an opportunity to buy real "Quality Merchandise" of the highest character. But whatever the "Gift that came from Spauldings" may be.... no matter what it cost.... it is sure to be

All at Remarkable Reductions!

The overnight case, sketched left, is of wicker with enamel fittings that come in various lovely colors. Cases of this sort range in price from \$65 to \$125, complete. They are on the First Floor, Middle, Wabash.

A gift, no matter how simple, gains a world of personality if it is wrapped in the smart new papers and ribbons. All the entrancing new wrappings may be had in our Gift Wrapping Section, Third Floor, South, State.

This many mirrored wall bracket, new and intriguing, is \$25. This flower holder of Tula, in red, green, or chartreuse is \$10. One of many fascinating things in La Maisonette, Ninth Floor, South, State.

A dainty boudoir lamp, right, in rose, orchid, yellow or green. With a dotted Swiss shade, \$5. The striking lamp, left, modern in design, is known as "The Widow." It is \$37.50. Lamps, The Second Floor, Wabash.

Czech-Slovakian covered glass jars, lower left, in smart new shapes, in orchid or blue, with decorations in gold and in colors. The one shown here is \$25. The Glassware Section, Second Floor, Middle, Wabash.

This is the newest of the Czech-Slovakian stoneware designs, a striking painted flower pattern. Of the pieces shown, the plates are \$80 a dozen, the ashtrays and goblets each \$40. Second Floor, Middle, Wabash.

The very new, and popular, Celesta flowers, below, are shown here in a new Venetian vase. They are the newest decorative ware of their kind, \$1.50, \$2.25 and \$3.75. Glassware, Second Floor, Middle, Wabash.

Below, an automatic electric Egg Boiler that cooks four eggs at a time, and cooks them as hard or soft as you want. It is surely one of the most unique inventions of the year, \$7.50. China, Second Floor, Wabash.

Wedgwood Queensware, right, long a favorite gift, now appears in a new pattern—the "Patrician." Inspired by a classical design, the pattern is in low relief on an ivory base. China Section, 2nd Fl., North, Wabash.

Even its French name—"Le Petit de Sauter de Chez Moi"—"Sweet Petit from My Own Garden"—lends enchantment to the very latest perfume by Caron. Handily bottled, it is priced \$35. First Floor, North, State.

Here, indeed, is the sense of convenience: an exotic cigarette case with a matching lighter enclosed. It is extremely smart in appearance and comes in delightful colors at \$15. On the First Floor, North, Wabash.

Among all the lovely things to buy this year, the pendant watch, shown above, ranks high in Christmas gift favor. Handsomely decorated with jade and diamonds, it is priced at \$900. The First Floor, South, Wabash.

A new, 4-table bridge outfit is shown above. It is of crushed calfskin, gold tooled and silk lined. It contains 3 decks of cards and 4 gold filled individual pencils. The price: \$60. On the First Floor, North, Wabash.

Truly modern is this Lalique design linen tea set of a 43x43-inch cloth and six napkins priced at \$75. A splendid Christmas gift suggestion from the Linen Section, Second Floor, North, State.

From Paris comes the very latest lingerie—an exquisite combination slip and step-in drawer for evening. French georgette, Alençon lace and Pique Tulle embroidery trimmed, it is \$62.75. Fifth Floor, South, State.

This vase is French enameled pottery, decorated with a design typical of continental modern art. It is \$10, and one of many new French pottery pieces. Second Floor, Middle and South, Wabash.

There are many important contemporary books available this season in fine bindings, like those illustrated. You may choose your gift from a variety of subjects. Book Section, Third Floor, North, Wabash.

For decorative merit and true usefulness we suggest this leather magazine cover. It is gold tooled and will grace a living room or library table. It is \$10. Artwork Section, Second Floor, Middle, Wabash.

Famous designers—Lelong, Fremet, Chanel and others—are expressing their keen understanding of the costume needs of modern women by creating such smart jewelry as this bracelet. The First Floor, South, Wabash.

The woman who is chic will delight in one of the very new foreign umbrellas, with a smart handle and a silk cover embossed in most effective colorings, \$10. Others are priced \$15 up. First Floor, South, State.

Stunning shoe buckles for evening slippers carry out a bold floral or leaf pattern in brilliant colors, \$27. They form part of an extensive buckle collection—and suggest charming gifts. Fifth Floor, Middle, Wabash.

The very latest boudoir slipper which we have imported from Paris is satin, with an exquisite design of wild roses handpainted on the toe. It may be had in various colors, \$8.50. Fifth Floor, Middle, Wabash.

Just arrived from Paris a special collection of unusual gloves. White kid with an effective black inset, \$4. White kid with an exquisitely beaded cuff in mode, white or gray, \$8.50 and \$10. First Floor, South, State.

Evening Bags from France are richly studded with pearls or rhinestones or are in the loveliest of colors for evening. Velvet is of special importance, too. Evening Bags, on the First Floor, Middle, Wabash.

Silver candlesticks, new in design, shapely beautiful and everlastingly useful. The two shown in the sketch above are ideally suitable for Christmas gifts, \$25 the pair. On the First Floor, South, Wabash.

The convenience of a cigarette lighter is tripled by the thoughtful addition of a wind-aid and time-piece. In 14K gold, this lighter is priced at \$140. Wabash-watch, \$145. On the First Floor, South, Wabash.

This decidedly pleasing example of modern ceramics, above, is from the studio of Jean Lucé, Paris. There probably is nothing of the kind which is newer and smarter. China Section, Second Floor, North, Wabash.

The exquisite combination of diamonds and emeralds finds a thoroughly worthy setting in this collar with its shower of baguettes and its diamond center. The price is \$9000. Shown on the First Floor, South, Wabash.

You'll admit that this carved emerald pendant is a bit breathtaking when you actually see its rich liveliness. Some gracious lady may well cherish it as a fitting gift. The price: \$4400. First Floor, South, Wabash.

Daytime purses of antelope are decidedly "The Thing." We have hundreds of them, handsomely designed and beautifully decorated and finished. The price range will please Christmas shoppers. First Floor, Middle, Wabash.

Richly, darkly green! A pool of mysterious, unfathomable depths! You'll understand such enthusiasm at the sight of the carved emerald ring, shown sketched above. The price: \$1650. The First Floor, South, Wabash.

RAILROADS OF BELGIUM SHOW FIRST PROFITS

Improve When Freed of State Ownership.

(Chicago Tribune Press Service.)
BRUSSELS, Belgium, Dec. 4.—In successful has been the first year of Belgium's experiment with quasi-private instead of government ownership of the railroads, into which the country was forced by the financial panic of a year ago, that the post-office, telephone and telegraph system is destined soon to be taken out of the ineffectual hands of the state.

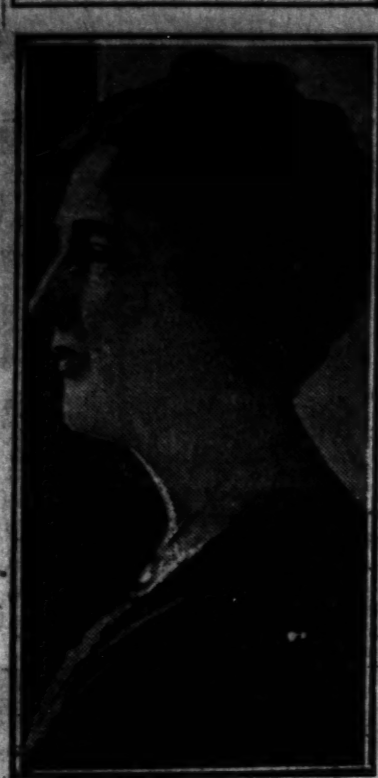

The railway system, which potentially is a gold mine, yielded a mere 50,000,000 francs (about \$1,400,000) last year, although it never showed a profit before. With the socialists out of the cabinet and a member of the Liberal party as head of the financial department, it is expected that M. Frangul, the old fox of Belgian finance and veritable dictator of the country's financial policy, will seize the opportunity to give the theory of public ownership another blow by making the system yield real money through an autonomous company.

Given Public's Surprise.
Public opinion actually is averse at the success of the railway experiment and is considered ripe for the transfer, which was impossible even fifteen months ago.

It was M. Frangul who, being a realist in finance and scornful of state ownership of anything, contrived the ingenious transfer of the railroads from the lackadaisical bureaucratic management under the thumb of parliamentary demagogues to a hard-headed commercial basis. How the old fox managed to turn the Belgian system not only into a source of revenue, but actually save the nation's treasury from collapse still is the seven days' wonder of European financial circles.

This is how he did it:
The Belgian railroads, which are the

BURIED TODAY

MARY BOOMER PAGE.

Funeral services for Mrs. Mary Boomer Page, for many years a leader in Chicago educational circles, will be held this afternoon at 2 o'clock in the Highland Park Presbyterian church. Burial will be at Rosehill cemetery.

During the last thirty-five years

Mrs. Page was identified with movements for the education of young children and young women. She was a graduate of the Chicago Kindergarten Collegiate Institute and was a founder and director of the Chicago Teachers' college. At various times she was head of the Chicago Kindergarten club, the Illinois State Kindergarten primary association, the kindergarten section of the National Education association, and the International Kindergarten union.

She was the widow of Charles Luther Page, whose death occurred in 1903.

Chicago is Europe from the point of view of miles of tracks to the square kilometer and number of stations per 10 kilometers (6.2 miles), were esti-

mated to be worth 14,000,000,000 francs (about \$352,500,000). In September the internal debt came down from 15,000,000,000 to 7,000,000,000 francs (from \$352,500,000 to \$156,250,000) as a result of the government's heroic efforts, but the country was threatened with bankruptcy as a result of the paucity of funds for reimbursement on the 4 per cent treasury bonds. M. Frangul saw it expedient to convert these billions into ready cash and to take the first step toward the assumed return to private ownership of the lines.

Parliament did not dare resist in the face of ruin, so it voted to turn the railroads over to the Societe Anonyme Chemins de Fer Belges for a period of seventy-five years, reserving the right to reconsider at the end of twenty-one years. Capitalized for 11,000,000,000 francs (about \$250,000,000), it began at once to issue stock on the home market, and in Holland and Switzerland.

Clean Up Treasury Debt.

Then M. Frangul's design became clear. The treasury made a move amounting to repudiation by announcing that the holders of the international short term 4 per cent issues could do one of two things: turn them into railway stock at 6 per cent, with the promise of 2.7 per cent super dividends, or turn them in against the new issue of 8 per cent treasury bonds. A billion francs (about \$25,000,000) were invested overnight and 99 per cent of the treasury's obligations were cleaned up in this fashion. Important foreign loans were also floated. The financial crisis was ended and now Belgium is on the high road to financial security. The Belgian taxpayer is charged 20 gold francs (about \$4) annually for the American public debt, as compared with 78 gold francs (about \$14) in France and 170 gold francs (about \$34) in England.

King Names Rail Directors.

The Belgian railroads always were good, but they are better now. For the first time in Belgian history they are an asset instead of a liability. From September, 1936, to June, 1937, receipts of 2,225,000 francs (about \$55,625,000) showed against expenditures of 1,890,000 francs (about \$47,250,000).

The company is completely autonomous. The king appoints twenty-one directors, five of whom really are in charge. Two of these are old time functionaries of the government roads, two are business men, and one is a representative of the railroad men's union. Strange to say, the three latter are forced to hand together to free innovations down the throats of the old timers, who yelp warnings

about projects never having been undertaken before.

Out of the reach of Socialist representation in parliament, the directors immediately started cutting the pay roll, releasing twenty thousand men, and saving close to 3,000,000 francs (about \$75,000,000) annually. The installation of superheaters effected an immediate saving in fuel costs of 30 per cent. The standardization of locomotives (Belgium had forty-five varieties in 1934) and experiments to replace wooden with steel ties produced in Belgium, it is expected, will save a lot more money.

Stays Lower Than Before War.

Under the old bureaucratic management, six trains ran every day in every line in Belgium, whether any one ever rode or not. Every train had a stated number of cars, often empty. Representatives in parliament would get their localities depots with full forces. Now the number of trains, cars, and depots depends on the traffic. The so-called "late hours," representing delays, have been cut to a third. The equipment is the same as before.

Although the rates have been boosted 32.13 per cent since June, they still are lower than before the war, and lower than in France and Germany. The fares in 1934 were: First class, 9 gold centimes; second class, 6.4 gold centimes; and third class, 3.3 gold centimes. Today they are: First class, 7.6 gold centimes; second class, 5.3 gold centimes; and third class, 3 gold centimes, or figured in cent per mile, 1.54 cents, 1.1 cents, and 1.04 cents.

The Belgian Socialists deny that the forced conversion of 1936 was anything but mere camouflage, but are forced to admit that the railroads at last are a source of income.

G. A. R. Post in Michigan

Has Only Six Members

Marshall, Mich., Dec. 4.—(Special.)—C. Cole Grove post No. 186, G. A. R., organized July 30, 1884, and during its existence having 312 members on the roster, did not hold an annual meeting last night. There are only six old soldiers left, all more than 80, and three are ill. The post charter has elapsed but David Walkinshaw, last commander, has been unable to send it to headquarters due to illness.

Do you endure walking—or enjoy it?

You've seen them! Women whose faces show that every step is an effort. They don't enjoy walking... they endure it. Consequently they don't enjoy housework, sports, or any other activity that keeps them on their feet. Constantly tortured by foot pains, a woman is bound to become weary, irritable and depressed.

If your feet ache, they demand immediate attention—and they won't stop aching until they get it. Let Ground Gripper Shoes give you the quick and permanent relief they have already given thousands of foot sufferers. SMALL BELIEVED TRIMMING SAIL TO ALL BREEZES

Tacking Among Factions Slows 3d Term Ship.

BY PARKE BROWN.

What Gov. Len Small is trying to do politically is to trim his sails to all the prevailing breezes, according to politicians. This is their answer to the question that has had folks scratching their heads for weeks. "Is Small going to surrender to Mayor Thompson's demands?" is the way the problem usually is put. The affirmative side has pointed to the governor's slowly yielding attitude on state patronage in Cook county, but the opposition points just as big a finger to Fred Lundin's obvious retention of the governor's confidence and favor.

In addition to these main phases of the situation it is known that Small, indirectly, perhaps, but nevertheless consistently, has maintained contact with the Deane county and state forces, and has been in touch with friends of Frank O. Lowden who intend to make him a presidential candidate.

Small Friendly with Lundin. Mayor Thompson is considered by many observers as the prevailing wind, the big wind some say, in the governorship fight this year. Small is not so sure. He carried Cook county in 1924 against the opposition of the Crow-Galpin organization, which contained the bulk of Thompson's organization. But despite the governor's apparent strength, he appears to be trying to keep Thompson at least inactive against him by giving him local state places as they become vacant.

But it has been Fred Lundin who, according to the observers, has carried the small ship along its course for the last seven years, during which it was sailing close to dangerous rocks and the governor, it seems, hasn't forgotten it. He's still traveling with Lundin, according to all political indications.

The governor's determination to enact new primary legislation to replace laws now under court attack is said to be due largely to the Deane influence. Cooperation toward removal of Small-Deane control of the legislature also is in the cards, and Lundin support will be thrown to Deane candidates for precinct committeemen as things stack up now.

Seeks to Avoid Clash. That Small recognizes the inadvisability of his backing Lowden downstate is said to have been shown by the willingness with which he accepted a chance to confer with the former governor and Thompson sev-

eral weeks ago, the purpose of the meeting being to devise a method of avoiding a state clash on the presidential issue.

Playing to these various elements is said to account for the fact that the Small craft is making no headway on the third term route. And Gov. Small is said to be entirely willing to move slowly until he has a better indication of the outer proceedings that State Representative J. Bert Miller of his home town, Kankakee, is trying to get started against him.

Order More in High Court. The question whether an Miller's petition, State's Attorney Fullenwider of Sangamon county shall be ordered to start quo warranto proceedings against Small is before the Supreme court of the state in its December term which opens today. A decision may be given this month.

WALKER BEYOND TRADITION. KILGORE, Pa., Ill., Dec. 4.—(Special.)—Mrs. Eva Walker, 70, was run down and killed last night by an Illinois Central train at Fullerton as she crossed the tracks two doors from her home.

17 IDENTIFIED, 100 CRIMES SOLVED IN SHOWUP OF 210

Seventeen of 210 alleged burglars and stickup men who were paraded before 400 spectators in the semi-weekly showup at the Desplantes street police station yesterday were identified in connection with specific crimes. Chief of Detectives William E. O'Connor announced that 100 robberies had consequently been solved.

The chief told the audience that one of the suspects, George W. Kelley, 45 years old, had been a pickpocket so long that it requires two full pages to accommodate his record and that he was fifteen aliases. Another suspect, according to the police lecture, worked street cars during the Christmas season. Chief O'Connor made him smile and display his gold teeth so that he could be recognized.

John Ryan, 34 years old, of 923 West 23d street, escaped identification by the spectators, but the police asserted he was wanted for a bank robbery in Kansas City. The government will be asked to deport Leon Mantecia, identified as a robber, who admitted that he was not an American citizen.

It took The Tribune to make this cash deal possible!

When Paul Meibuhr of 1261 North Dearborn Street was faced with the problem of selling his tailoring shop, he determined on advertising as the most expedient means. To make doubly sure of his results he used two mediums, placing one ad in The Tribune Want Ad Section and one in an evening paper. The evening paper brought him 9 replies and no sale. The Tribune put him in immediate touch with 54 prospects and sold his shop for cash.

With hundreds of thousands more people in Chicago and its suburbs reading its Want Ad Section every day, The Tribune naturally brings more prospects and yields quicker, more satisfactory results than any other newspaper. What it did for Mr. Meibuhr it can do for you! Phone

MARINE FLYERS
BATTLE SQUALLS;
BEACH MANAGUAU.S. Major Tells Air Perils
Braved 'In Line of Duty.'

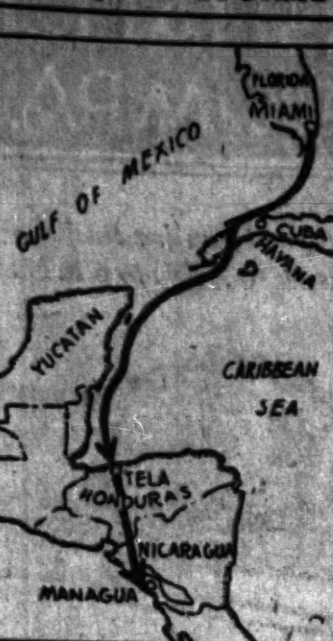

MANAGUA, Nicaragua, Dec. 4.—(AP) Major E. H. Brainerd, with one of the United States marine aviators, landed in the outskirts of Managua at 2:37 p. m. today. With him were Sgt. M. P. Shepard and N. M. Winchester. A great crowd had gathered to welcome the aviators.

The aviators hopped off from Miami in their big Fokker monoplane yesterday morning and made a landing at Managua at 4:07 p. m., having covered the first nonstop flight from the United States to Honduras, a distance of about 735 miles. They were into the air again about 11:30 a. m. for their flight of 250 or more miles to Managua.

Major Brainerd made a graceful landing. He was cheered mightily by the waiting crowds. Col. Gutierrez, chief of the Nicaraguan army, and many other officers hurried up and congratulated the aviators. The major and his companions looked as if they stepped from their plane.

Major Brainerd said: "Leaving this morning, the weather was not so good as it was when we left Tegucigalpa. We did not go to Tegucigalpa, but 10 miles to the east. We then came into fine weather."

CONQUER STORMS

A United States marine plane, commanded by Maj. E. H. Brainerd, flew from Tela, Honduras, to Managua, Nicaragua, yesterday, completing a flight of nearly 1,000 miles, from Miami, Fla., with but one stop. Much of the way the major and his two companions battled with heavy squalls.

er and headed for Managua. Our average speed from Tela was about ninety miles. We took about three hours to make the trip.

"Nicaragua is a beautiful country from the air, and I am glad to be here. I will remain for a few days and then return to the United States."

The major termed his flight "a regular duty trip." He carried a letter from the Nicaraguan minister in Washington.

Tela, Honduras, Dec. 4.—(By wire to the Associated Press.)—Major

U. S. Brainerd, after his arrival here late yesterday from Miami, gave the following account of the air hazards overcome "in line of duty."

"We took off from the municipal airport in Miami at 6:30 this morning with the plane weighing 10,500 pounds without difficulty and held a course for Havana."

"It soon was evident that we had a twenty mile headwind from 1,000 feet, which required a 15 degree allowance to make the course good. We made a landfall on a little east of Havana and dropped a message at a Cuban field at 8:35, which gave us a land speed of only 65 miles an hour."

Fight Heavy Squalls.

"Twenty miles west of Havana we ran into rain with low clouds, requiring us to keep along the coast, and later on the weather was so bad we cut across to the south coast, going through heavy squalls which drove us down to 100 feet."

"We made a landfall on the northeast coast of Yucatan and headed down the coast about twenty miles off shore."

RADICAL GRIP ON WISCONSIN GONE, IS CAPITOL VIEW

La Follette Partisans Still Claim Vote Control.

(Picture on back page.)

Washington, Dec. 4.—(Special.)—Election in Wisconsin yesterday of two conservative members of the Republican national committee was construed here today by regular Republicans as indicative of the breaking of the La Follette grip on the party organization in that state. For the first time in 30 years Wisconsin will be represented on the national committee by members antagonistic to the La Follette leadership.

Senator La Follette declined to comment on the incident for publication, intimating that he might have something to say within a few days. Other members of the La Follette following pronounced the incident without significance.

"I don't know how it happened," said one of these. "Either some of our members of the state committee were absent or some of our members have deserted us. In any event, no significance attaches to the matter. The progressive Republicans who for years followed the leadership of the late Senator La Follette are stronger than ever in Wisconsin."

See Beginning of End.

In any event, the two members of the national committee elected yesterday will serve only till the national convention next June. Then two members will be elected by the Wisconsin delegation. If the La Follette progressives control the Wisconsin delegation, La Follette members of the national committee will be elected. Otherwise, conservative members will be chosen. That is going to be the real test of control as between the La Follette progressives and the conservatives.

According to the regular Republicans, the triumph of the conservatives in the election of these two national committeemen is the beginning of the end of La Follette domination of Wisconsin. They say that the La Follette hold on the state has been slipping ever since the death of " Fighting Bob."

Whether Senator La Follette will be able to hold together the various party elements which his father welded together in a matter of speculation. His leadership will be put to the test next year, when he will be a candidate to succeed himself.

Realigning in Full Swing.

Madison, Wis., Dec. 4.—(Special.)—A realignment in Wisconsin politics, which started with the death of Senator Robert M. La Follette Sr. two years ago, is in full swing with the re-election for the first time in twenty years

in charge of the national party machinery in the state. A defeat of the La Follette faction at the meeting of the state central committee Saturday by the election of George Vitz, Manitowish, as national committeeman from the state, brings a new force into the political arena. His nomination for the national committee will strengthen a movement to make him a delegate candidate-at-large to the Republican national convention next year. Should the Milwaukee conference on Dec. 15 endorse him as such a candidate, and should he make a strong showing, some conservatives will talk about him as a possible candidate for United States senator in 1932.

Radicals Explain Defeat.

Milwaukee, Wis., Dec. 4.—(Special.)—Whatever the result of the Republican rout of La Follette forces at the meeting of the Republican state central committee at Madison Saturday, radicals are wont to agree on two specific angles:

1. The mismanagement on the part of Senator John B. Chase, Oconto, the progressive chairman, was responsible for "likewarm" delegates taking part

in the election. 2. That the defeat of Herman L. Kerner, the Progressive candidate for national committeeman, was the result of his evidence in saying he is an avowed "dry."

"At least three independent votes of the committee which endorsed President Coolidge, his policies and platform, and named George Vitz, Manitowish, and Mrs. Harry E. Thomas, Sheboygan, to the two vacancies on the national committee, were alienated by the domineering manner in which Chairman Chase conducted the meeting," Benjamin Fuchsman, member of the committee from the Milwaukee district, declared today.

Assemblyman Henry Staab, Milwaukee, sincerely believes that Mr. Kerner was defeated because he had failed to express himself positively on the wet and dry question, and despite the fact that he had pledged himself to abide by a referendum on prohibition.

CIGARETTE BRINGS DEATH.

Chicago, Ill., Dec. 4.—(Special.)—Aurora E. LaFollette, 31, died today of burns received yesterday morning when her dress took fire from a heated cigarette.

LaFollette was a member of the Milwaukee district, declared today.

Portugal Sets Definite Districts for Gambling

[Chicago Tribune Press Service.]

LISBON, Dec. 4.—A decree regulating gambling in Portugal will be published in the official bulletin tomorrow. Six temporary gambling zones have been established in Santa Lucia, Estoril, Curia, Figueira da Foz, Cintra and Praia Roch. There will be two permanent zones at Estoril and Funchal. The decree strictly forbids gambling in Lisbon and Oporto.

Complete \$1,000,000 Fund for Control of Cancer

New York, Dec. 4.—(Special.)—Thomas W. Lamont, of J. P. Morgan & Co., as chairman of the general committee of the American Society for the Control of Cancer, announced today completion of the society's \$1,000,000 fund for which a campaign was started a year ago. The fund will insure a minimum budget of \$40,000 a year to continue the society's work.

man. On April 8, 1927, Fudge made a confession, stating that he never purchased booze from Corman at any time. Testifying in his own behalf in the perjury trial, he repudiated his confession. His co-accuser, Elmer Nave, who is under a similar indictment, also repudiated a similar confession when he took the stand as a defense witness.

Corman has filed a \$25,000 suit for damages resulting from the raid and his arrest. Former Sheriff Andrew Fleisher, who died recently, and his three regular deputies, Ben Kerns, Elmer Deegan and Joe Betterton are named defendants besides Fudge and Nave.

Result of Political Feud.

The raid, Corman claimed, was an outgrowth of his activities in the board of supervisors to curtail expenses in the sheriff's office under Fleisher's regime. Corman balked on paying special deputy fees to fifty and sixty special officers, who raided alleged bootleggers. Many of the extra deputies never received any pay. As a result, a bitter feud broke out between Fleisher and Corman. Shortly afterwards, Corman was placed under arrest for selling booze, a result of Fudge's allegations. He was freed and charges dropped.

DEMANDS VOTE FOR NEGRO

(Chicago Tribune Press Service.)
Washington, D. C., Dec. 4.—(Spre-

ck.)—Asserting that "honest and constitutional government in the United States does not exist" by reason of the nullification of the fourteenth and fifteenth amendments to the constitution, Representative Tinkham (Rep. Mass.) made public tonight the text of a resolution he will offer in the house tomorrow aimed at the disfranchisement of Negroes by the southern states.

The resolution provides that in preparation for the next congressional apportionment under the 1920 census the house shall investigate the extent to which the right to vote has been abridged by any state. The fourteenth amendment directs that the representation in congress of any state abridging the right to vote shall be reduced in proportion to the number of voters disfranchised.

Reduction of Representation.

Under the terms of the Tinkham resolution the committee would recommend reductions of representation in connection with the congressional reapportionment after 1930.

"Section 2 of article 1 of the constitution," Representative Tinkham said, "provides that a census shall be taken every ten years and that reapportionment of representation in the lower house of congress shall follow. No reapportionment of the house of representatives has occurred since the 1910 census."

Insurrectionary States.

"The Republican leaders of the house of representatives, joining with the representatives from the insurrectionary slave states of the south are responsible."

"The great cities of the north and west, whose population during the last eighteen years has vastly increased, are now not lawfully, fairly, and proportionately represented."

"The house of representatives is not organized honestly and constitutionally and does not fairly represent the American people and American sentiments. Section 2 of article 1 of the constitution is wholly nullified."

"The fourteenth amendment of the constitution, adopted immediately after the adoption of the thirteenth amendment, which abolished slavery, is mandatory, and provides that congress shall reduce the number of representatives of any state in accordance with the disfranchisement which may exist in that state."

"This amendment recognized the right of the states to prescribe their

own election laws as long as they were in conformity with the constitution, but fixed as the price of any disfranchisement of the Negro, the reduction of representation."

JAIL POPULATION INCREASES

Washington, D. C., Dec. 4.—(Spreckel.)—Department of justice records made public today disclose that from the enactment of the prohibition law until June 30, 1927, 233,507 persons were convicted in federal courts for violations and 9,666 persons acquitted. The convictions carried with them fines aggregating \$42,000,000 and jail or prison sentences totaling more than 22,500 years.

During the fiscal year which ended on June 30 last, there were 13,817 persons sentenced to jail or prison for terms averaging 129 days, and during the same period 34,778 were fined, paying an average of \$213 each.

A comparative table which accompanies the report of the justice department shows decreased convictions during the last fiscal year in the major federal court districts. In New York, which has four federal districts, a total of 5,519 convictions were secured in 1927 as against 6,094 in 1926 and the aggregate of fines dropped from \$1,700,057 in 1926 to \$1,298,107 in 1927. The three federal districts in Illinois reported a total of 814 liquor law convictions in 1927 as against 826 in 1926 and a total of \$397,025 in fines in 1927 as compared with \$419,553 in 1926.

SUE EXECUTED

GEN. GOMEZ
FOR \$5,000,000

Nogales, Ariz., Dec. 4.—(AP)—Mexico is suing Gen. Arnulfo R. Gomez, presidential candidate, who was executed as a rebel leader recently, for \$5,000,000.

The suit, an official bulletin issued at Nogales, Sonora, across the border, said, serves notice that the federal public agent at Mexico City has decreed the dead soldier-statesman must pay that sum to Mexico. No charges were mentioned.

Suit for a similar amount was filed against Paulino Fontes, former head of the Mexican National railways, who recently was acquitted on a charge of being a rebel leader.

4,582,000 TOOK DIP AT BEACHES, REPORT SHOWS

Chicago's municipal bathing beaches furnished recreation last summer for an estimated 4,582,000 persons, an increase of nearly half a million over the number who swam at the beaches during the 1925 season, according to a re-

port yesterday by Walter Wright, head of the bureau of parks, playgrounds and beaches.

The city operated four large beaches, sixteen street and beaches, and four swimming pools.

Attendance at the city playgrounds also showed a big increase during the season. Mr. Wright's report disclosed. Nearly 3,700,000 children took advantage of them, he estimated, as compared to 3,400,000 last year.

Tribune Ad could
produce such re-
sults!

AGAIN Tribune Want Ads have proved beyond all question their supremacy in real estate advertising. Proved it by producing results far beyond the expectations of the advertiser.

When Mr. A. Z. Mallen of Homewood ordered his well-worded message, advertising a seven room house for rent, to be placed in The Tribune Want Ad Section, his most sanguine hopes could not lead him to expect the deluge of returns that poured in on him.

During the course of that week he sold one home, rented three, and opened a deal for another that he expects hourly to culminate in a favorable close. And, although his ad appeared three weeks ago, he still is rushed for time to show his properties to the prospects that continue to press him for appointments.

Mr. Mallen's experience is another illustration of the fact that Tribune Want Ads are subject to no seasonal slackness. If you have any vacant properties let The Tribune find you tenants—Call

COST IS SMALL PART OF BEING GOOD FELLOW

But Reward Is Great, So
Enroll Today.

BY THOMAS WREN.

Often during the Tribune's annual Good Fellow crusade to brighten the lives of the poor children of the city at Christmas time the query is made: How much does it cost to be a Good Fellow?

The following food list for a bountiful dinner for a family of six has therefore been prepared, on the advice of an expert dietitian, as a suggestion only and can be varied to suit the wishes of the individual preparing the basket:

Roast or broil 1 lb. meat, 5 lbs. . . . \$2.00
Sweet potatoes, 4 lbs. 25c
Butter or margarine, 1 lb. 15c
Green peas (frozen), 1 lb. 15c
Canned tomatoes, 1 can 15c
Sugar, 2 lbs. 15c
Raisins, 1 lb. 15c
Nuts (mixed), 1 lb. 25c
Oranges, 6 to 12 25c
Apples, 4 lbs. 25c
Candy, 2 pounds 25c
Bread, 1 loaf 10c
Coffee, 1 lb. 25c
\$3.80 to \$4.00

Then add to the cost of the food stuffs the price of a few toys and some candy and one has the estimate

GOOD FELLOWS!

Here's a Form to Fill Out. It Will Aid You in Stating Your Plans for Helping Poor Kids.

If you will be a Good Fellow on Christmas day to a family of poor children in Chicago, please fill out the attached blank and send it to The Tribune Good Fellow Department.

I live at _____ street

I will be Santa Claus to _____ children
(as many as you wish)

Please give me the names of children in _____ st. (state what section of the city you prefer to have assigned to you).

Sign your name _____

of what costs to be a Good Fellow. It is entirely up to the individual Good Fellow just how much he wants to spend on a poor family. But as the Good Fellow idea is predicated on great happiness and joy for poor kids at Christmas time, there should be a supply of candy, and nuts, and toys delivered along with the basket of food.

As the original Good Fellow stated in his letter: "You pay not one cent more than you want to pay—every cent just where you want it to go. You gain neither notoriety nor advertising; you don't with no organization. No record will be kept; your letter will be returned to you. The whole plan is just as anonymous as Santa Claus himself."

Santa Claus is appealed to in a letter sent in to the Good Fellow department by Norman, 22, a 6 year old boy who lives on the west side. He says his mother is ill and there are seven

other small children in the family. The bread winner of the family was killed in an explosion six months ago. Two sisters of Norman are working and trying to keep the wolf from the door.

Their wages are small and a large part of them go to purchasing medicine for their bed-ridden mother. Christmas is fast approaching and it is up to some Chicago Good Fellow to do his stuff for Norman and his brothers and sisters.

Good Fellows, enroll today at The Tribune's Good Fellow department at 1 South Dearborn street, clip the coupon in today's Tribune, or call Superior 0100 and ask for the Good Fellow department.

\$5,000 FIRE DAMAGES WAREHOUSE. A fire, started by spontaneous combustion, in a rag warehouse of the West Side Metal Baking company, 2917 to 2919 La Salle street, was fought by 11 companies after a 2-11 alarm had been sounded late last night. Damage was estimated at \$5,000.

SEEK \$5,000,000 GERMAN GOLD IN TORPEDOED SHIP

(Chicago Tribune From Service)
BRUSSELS, Dec. 4.—"The most modern salvage equipment in existence, a French company expects to begin work soon to raise the Dutch

liner Tubantia, which was torpedoed in the North Sea on March 18, 1917, by a German submarine. It carried about \$5,000,000 in gold.

The Tubantia, it is presumed, was carrying secret funds for use by the German embassy at Washington for propaganda in America. According to gossip in Dutch ports, the money was hidden in a consignment of Dutch cheese.

Circumstances veiled her identity, but Want Ad readers searched her out . . .

MISS WITHERSPON of 4305 North Winchester avenue ruefully read the ad she had placed in The Tribune Want Ad Section describing a fur coat she wanted to sell. The ad carried no signature except her phone number, and, of all days, her phone was out of order. To her the situation seemed hopeless, even if her ad did arouse the interest of prospective buyers there was no way for them to get in touch with her.

So it was with a shock that she found her house besieged, for two days following the appearance of her ad, by prospects anxious to buy the coat. Then, for the first time, Miss Witherspon fully realized the tremendous pulling power of Tribune Want Ads. These people had read her ad and attempted to call her. On finding her phone disconnected they had gone to the trouble of procuring her home address from the Telephone Company.

Miss Witherspon's experience is another proof of the sales power of Tribune Want Ads—a power so great that it overcomes all obstacles. If you have anything to sell, avail yourself of it, call—

104 WAYS TO MAKE MONEY

COOLIDGE CALLS HIGH WAGES KEY TO U. S. PROSPERITY

Coolidge Aliens Denace Nation.

U. S. Dec. 4.—(Special) High wages scale as the key to maintaining American prosperity, Secretary of Labor Coolidge said in his annual report to Congress.

whose standard of living is far below that prevailing in the United States, asserting that their presence in the ranks of American workers constitutes a real danger to American prosperity. He advocated the adoption of more stringent immigration legislation and the persistent cultivation of the American domestic market by this nation's industry as the best means of promoting American workers from wage reduction and a breakdown in the American standard of living.

For Maximum Output. Mr. Davis said that in his opinion the day has arrived in this country when depression can be wiped out and prosperity made permanent. A continuation of the present partnership between the worker and employer, one striving to produce to the utmost and the other willing to pay a just wage for this maximum output, is certain to maintain the present era of good times, Mr. Davis said.

"I firmly believe," said Mr. Davis, "that the people who conquered this continent and built upon it the greatest industrial development in history will go on to keep that development healthily growing."

"If we keep the national industrial

organization well oiled with good will, if our great home market is protected against senseless wage reductions from within and against those who would underbid it from without, I see no reason why we should not keep prosperity with us as a permanent thing."

Wage Cuts Bad Business.

"Reduction of wages is bad business. No matter how large the population, we know that no low wage country is prosperous, and no low wage section of the United States is as prosperous today as those parts of the country where high wages prevail."

Eleven recommendations, eight of them calling for amendments to the immigration law, are submitted by Mr. Davis. Their adoption by Congress, he believes, would safeguard not only the rights of the American people but result in the improvement of the immigrant.

"To drive out the undesirable class of aliens and discourage their return to this country, the labor secretary advocates the enactment of legislation providing punishment for aliens who reenter the country after having once been deported. He asks that fines be imposed on transportation companies for bringing stowaways when in

the opinion of immigration officials or diary care would have resulted in their detention on board incoming ships."

Strict Deportation Laws.

Secretary Davis also would have the deportation laws codified and strengthened and new classes of deportable aliens created. In his opinion, alien narcotic peddlers should be subject to deportation.

"The number of aliens who annually enter the United States through surreptitious means can not be even estimated," Mr. Davis said in urging stricter deportation laws. "There are holes in the law which no amount of vigilance can stop. These holes should be stopped."

"Deportation alone as a punishment for illegal entry into the United States is not sufficient. The alien who illegally reenters the United States should be treated as a law violator and punished effectively."

Secretary Davis reported that a recent survey made to determine how many aliens were in the federal and state institutions disclosed 45,119 in prisons, penitentiaries, and jails; 37,470 in insane asylums and other institutions for the care of the mentally de-

mented; 14,143 in hospitals, and 18,083 in policehouses.

In his report on labor in industry Secretary Davis pointed with regret to the surprisingly large death toll caused by machinery.

"No other industrial nation produces so many goods as we do," he said. "And in no other country are so many men killed and maimed in industry."

"Whatever its mechanical wonders, the nation can not continue to be proud of its industry and prosperity while the machinery that produces it kills by preventable accidents 48 men a day and annually maims 108,000 more."

Marauders Ransack Office of Dairy; Escape in Trucks

Marauders yesterday entered the Purdy Dairy company offices at 2917 East 55th street, forced open a small safe, scattered papers and books around the office, spilled quantities of milk, and then left with two of the three trucks in the garage. Hans Perkins, the owner, said he knew of no reason why intruders should molest his office.

WARNS AGAINST FIRE HAZARD IN CROWDED STORES

Warning was issued yesterday by Fire Commissioner Albert W. Goodrich in the department bulletin against lighted cigarettes and cigars carried by men smokers into stores crowded with holiday shoppers.

Filmy decorations of paper and other inflammable materials are a serious menace to fire safety, he asserted. He revealed that men from the fire prevention bureau have been instructed to make frequent inspections, and to order arrests and prosecution when they find careless violators of warning notices about smoking.

"Basements of stores at Christmas time should be watched carefully to prevent accumulations of inflammable rubbish," the bulletin reads. "Persons decorating schools, churches, dance halls, and other centers of gatherings should be warned against the use of paper decorations."

Christmas Suggestions

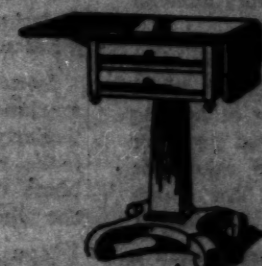

This chair from our own shops was reproduced from a wonderful old model in Chippendale style. Because of its down cushion and hand-tailored upholstery it is very comfortable. It is especially good with Early American pieces but will fit in well in any room.

In Colonial Denim, \$98
In Satin Damask, \$131

On our fourth floor you will find the kind of chairs men talk about, deep and luxurious, with that racy London Club slapping. In rich fabrics, leather and more.

From the Gift Room Second Floor

Reproduction of a solid mahogany drop leaf work table with two drawers. \$30

The charming small pieces of occasional furniture, lamps and art objects of the Gift Room will delight the Christmas shopper.

The lamps of this shop are noted for their distinctive style and artistic designs but a large part of them are modest in price.

FOREST FIRES ON EVERY SIDE OF LOS ANGELES

Destroy 175 Homes, Burn
Over 500 Acres.

BY GEORGE SHAFER.
[Chicago Tribune Press Service.]

Los Angeles, Cal., Dec. 4.—(Special.)—Six forest and brush fires, fanned by the wind, are burning late today on all sides of Los Angeles. Thousands of motorists and citizens have been conscripted to join the fire departments in fighting the flames, most of which started over night and quickly assumed dangerous proportions.

It is estimated that 175 homes and cabins and 5,000 acres have been burned and one great watershed is threatened with destruction. Property damage is estimated at \$1,000,000.

Fire Swept Regions.

The various fires are located as follows:

Verdugo Hills, north of Glendale and west of Pasadena; this fire, which already has destroyed 100 cabins and homes and the Sunset Country club, leaped Michigan boulevard, which links Pasadena with San Fernando, and is threatening other residential sections. The fight to check it was made more difficult when the fire passed over Verdugo peak and traveled in two different paths. This blaze had its origin in a refuse burner at Highway Highlands, near La Crescenta.

Santa Ana canyon, in the vast country of the San Bernardino mountains, between Lake Arrowhead and Big Bear lake; seventy-five cabins were destroyed. Fire wardens say this blaze started 100 yards from the cabin of Reginald Denny, motion picture actor, and are investigating a report that Denny entertained a party of friends in his cabin last night, to determine whether any of his guests is responsible for it.

The fire has scaled Keller peak, at an elevation of more than 7,000 feet, and is sweeping through the Santa Ana watershed, creating a difficult problem for the fire fighters.

300 Fight to Save Watershed.
Santa Susanna pass, west of San Fernando and near the Ventura county line, has 300 men battling the flames in that sector to save valuable watershed lands.

San Antonio canyon, north of Claremont and Upland, fire started at noon today and began to work in a southerly direction, threatening another residential district. Equipment and men were rushed to the scene from Pasadena and Upland. Pumps and hose were sent to Manker Flats to protect cabins and homes there.

Mint canyon, between Palmdale and Saugus, it is reported that 2,000 acres are in flames, in a high, mountainous country, part of which is almost inaccessible.

Palm Springs, near Riverside, a dangerous fire is raging, but only fragmentary reports have been received.

Another General Killed by Mexican Firing Squad

[Chicago Tribune Press Service.]
MEXICO CITY, Dec. 4.—Gen. Horacio Lucero, one of the army leaders in

the recent Gomez-Serrano revolution, was condemned by court martial and shot by a firing squad near Puerto Mexico today. Gen. Lucero was attempting to reach a port on the Gulf coast when he was arrested yesterday in the lowlands of the state of Vera Cruz. With the death of Gen. Lucero only two are left of the generals who revolted with Gen. Arnulfo Gomez and Gen. Francisco Serrano, both presidential candidates. These are Hector Isidro Almada and Antonio Medina.

WIN URGES \$603,000 FOR ILLINOIS CANAL

Work is Held Up by Lack of Appropriations.

Washington, D. C., Dec. 4.—(Special) A total of \$603,000 can profitably be expended by the government in completing the federal end of the Illinois canal of the lakes to the gulf waterway, the fiscal year ending June 30, 1928, Gen. Edgar Jadwin, chief engineer, reported today to the committee on the canal.

ing out the project adopted by the last congress, which authorized the expenditure of \$3,500,000 in the construction of a nine foot channel in the federal end of the Illinois river. Gen. Jadwin explained that work on this improvement cannot be started this year because none of the \$3,500,000 has been appropriated. It is expected that congress will approve the expenditure of the funds as fast as recommended by the chief of engineers.

Gen. Jadwin's report discloses that a total of \$99,137 was expended in 1927 for the improvement of the Illinois river, and it is expected that \$64,000 will be expended in maintenance and completion of the old, seven foot project. Traffic in the Illinois river was greater by 20,000 tons in 1928 than in 1925. The total tonnage in 1928 amounted to 116,285 tons.

The war department contemplates the expenditure of \$545,000 in maintenance and construction work in 1928 on Waukegan harbor, Chicago harbor, Chicago river, Calumet river and harbor, and Indiana harbor.

STOLEN AUTO FROM GARAGE.

Two negroes entered the square garage at 2740 North Federal avenue yesterday and drove away with an automobile while the attendant was in another part of the establishment.

WATER DIVERSION APPROVAL GIVEN BY MINNEAPOLIS

Minnesota's opposition to the diversion of water from Lake Michigan at Chicago for sanitary purposes does not emanate from Minneapolis, a delegation from that city assured Ald. Guy Guernsey yesterday in presenting him with a resolution adopted by the Minneapolis river and harbor commission.

John Peterson, chairman of the Minneapolis commission, made the presentation for his group, which is en route to Washington for the national rivers and harbors conference.

"Notwithstanding," the resolution reads, "that Minnesota has been a party to the litigation opposing the Chicago policy of diverting 8,500 cubic feet of water per second from Lake Michigan, the opposition to drainage has come mostly from the people of Duluth, who have induced the state to take action against Chicago. As far as the government of the city of Minneapolis and the business men in general are concerned, we are not opposed to it."

Actor Hurt in Fall When a Tiger Embraces Him

BERLIN, Dec. 4.—The German motion picture star, Harry Piel, was seriously hurt by a tiger in the Babelsberg movie studio today. The tiger started to embrace him while he leaned against a balustrade, which collapsed. Piel and bear were thrown fourteen feet into an arena. Piel was taken to a hospital, while the tiger allowed himself to be recaptured and led to his cage.

MAXWELL HOUSE COFFEE

It is pleasing more people than any other coffee ever offered for sale

FEW women can ever have tasted them all—the countless kinds and grades of coffee sent to this country from the tropics of four continents.

Yet one by one, each has been tried and rejected. No single coffee grown has ever pleased those many women throughout the United States who understand the fine things of life.

Hundreds of natural coffee flavors—yet every one lacking in some one thing. Too pungent perhaps, too delicate, too "acid" or too "heavy."

It is no single coffee flavor—but a rich mingling of many flavors—that is the first ever to please the critical people of the entire country.

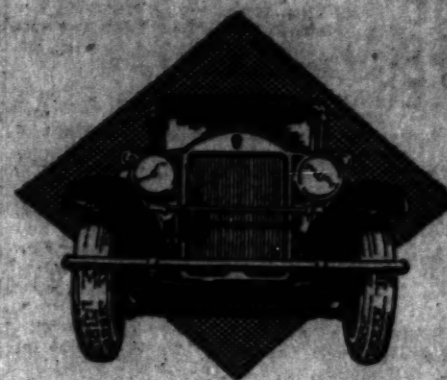

Years ago a southerner of the old South created this special shade of richness.

Today Joel Cheek's blend, Maxwell House, has won such fame as never before came to a coffee. Known to the South alone a few years ago, that mellow shade of difference in Maxwell House has swiftly made it by far the largest selling coffee in the United States.

A new experience awaits you in that extra touch of blended richness—in the smooth full-bodied goodness of Maxwell House Coffee. See what new contentment your family finds at breakfast and dinner in their first taste of its mellow liquor.

Strikingly New!

There is a new scion of the House of Pierce-Arrow—and nothing more beautifully modern was ever shown. The car has a patrician smartness. Also, a moderate price.

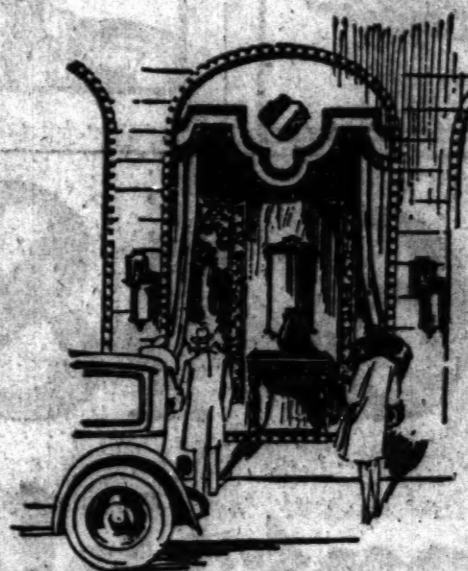

...the little more
and how much it is!
The little less, and what worlds away"

When one sees something of finest material, exquisitely wrought by hand, the searching truth of the above becomes clearly apparent.

The object may be anything: a garment or a jewel, a tapestry or a motor car. To be treasured because it has that which is without price: "the little more!"

And thus the new Pierce-Arrow is preëminently fine—because its builders work to the dictates of a tradition that knows no compromise with ordinary excellence.

FARM EXPOSITION SHOWS CITY LIFE IN RURAL HOMES

National Bureau Opens
Exhibits Today.

The farmer and his wife and their individual and common problems, will be given special consideration at the second National Farm Bureau Agricultural exposition opening at the Hotel Sherman today in connection with the meeting of the American Farm Bureau federation.

Among the 45 exhibits are tractors and farm machinery, showing newer and better methods of production, exhibits of masculine interest primarily, but by far the majority concern matters of special interest to farm women. The aim is to bring the advantages of metropolitan life into country homes.

From Dull to Bright.

The National Lumber Manufacturers' association, in its exhibit, shows a typically dull, drab farm house, and then transforms it by the addition of four new units into an attractive modern home. Plumbing and lighting facilities of city homes are shown in other displays, and how ideas in arts and crafts to take up the farm wife's spare time, if any, are shown in another.

The day when a farmer's wife either knitted or crocheted for amusement when the day's work was done, appears to be past. From remote districts in Mississippi, from the mountains of Tennessee and from out of the way places in Nevada and Idaho come examples of what farm wives are doing now with their leisure.

Artistic Developments.

Biscuit trays, rose vases, baskets, boudoir and sewing boxes woven from pine needles, housewreck vines and

grass are on display together with new French painted lamp shades, hooked scarves, pictures made from magazine covers in which actual clothes are substituted for the painted ones, artificial flowers, wax plaques, feather fans made from goose, peacock, guinea hen and pheasant feathers, all these and more show how farm women are developing their artistic instinct.

Visitors arriving early for the meeting of the federation were "rained out" yesterday afternoon in the grand ballroom of the Hotel Sherman, with the co-act play by Prof. Fred Eastman of the divinity school, University of Chicago. The play, given by a cast supplied by the Chicago Art Theater company, is concerned with the problems of a typical farm family struggling against poverty.

Motion pictures will play a prominent part in the show. There will be one picture showing the growth of a plant, another will tell the story of co-operative live stock marketing.

MATE + CAREER IS CO-EDS' IDEAL, SURVEY SHOWS

Jacksonville, Ill., Dec. 4.—(Special.)—Marriage, plus a career, is the ideal of most college girls, according to the result of a survey just completed among the 400 students of the Illinois Women's college here.

More than 300 students answered a questionnaire on which the survey was based. Of these 144 replied they believed in "marriage and a career," 55 favored an alternative, either marriage or a career; 48 desired more marriage; marriage, and a career later, while 12 were of unformed opinions.

General culture and knowledge rather than specialization is most desirable for women's education, according to the survey, a majority of the replies favoring broad educational training rather than training along special lines.

756,648 died of preventable disease last year!

Which Disease Threatens You?

Following the fortunes of nearly every family there is a disease which, from time to time, reaches out and strikes down a member, sometimes several or more in a single generation.

IT MAY be cancer or heart disease or tuberculosis, one of the dread kidney diseases, pneumonia, apoplexy or some other ailment not mentioned here.

But every person is more susceptible to some one disease than to any other.

In your case you know which it is. You know which members of your family it has cut off in their prime; and for all you know, you will be the next to go.

You Can Avoid It

But remember this, if you fall into the clutches of the disease you fear, or of any other disease, it will be your own fault.

No disease can conquer a healthy person.

If you take steps now, while you still have it, to retain your health, if you avoid the errors of living that destroy the power of the human body to resist disease, there is no reason why any disease should ever get the better of you.

And if you have already fallen victim or feel that you are on the verge, unless you are indeed far gone, the same pleasant common sense mode of living that retains health will do much to ensure health to you.

Begin Now to Protect Yourself

In this connection Physical Culture can be of tremendous value to you. In the December issue there are twenty-four health articles of vital interest to every man and woman. For instance, there is an article by

Bernard Macfadden entitled "Build Vitality With Friction Baths" in which he shows, by concrete example, the almost unbelievable value of such treatments, especially to those having or fearing tuberculosis.

In the same issue Mrs. W. Dixon writes on "Cured My Goitre by Natural Methods," explaining in detail the amazingly simple method employed by Mrs. Dixon to rid herself of this terrible malady forever—a method that anyone so afflicted can easily apply.

"I Regained Lost Youth—Here's How" is a startling revelation of the secrets of rejuvenation discovered by a woman who remade her body at fifty-five.

The perils of mastoiditis and how to prevent this deadly disease which claims so many victims is the theme of a remarkably enlightening article entitled "Ear Troubles and Mastoiditis—Will They Get You?" by La Forrest Potter, M. D.

Tomorrow May Be Too Late!

The above four features are typical of the twenty-four tremendously helpful health features in December Physical Culture. Naturally, in any one issue space prohibits the publication of articles dealing with all subjects of health; but Physical Culture treats of several new subjects each month, and an early issue will be almost sure to feature the subject you are most vitally interested in. Don't postpone a decision that may mean life or death to you or your loved ones. Get the December Physical Culture today.

To protect the \$1,000,000,000 that is in his care - Andy resolves to hire a private army with himself as commander-in-chief. He feels sure that as an army leader he will be bigger than Alexander the Great.

I WISH TO INFORM YOU, MRS. GUMP, THAT IN A VERY SHORT TIME YOU WILL HAVE TO LEARN THE MANUAL OF ARMS AND HOW TO SALUTE A SUPERIOR OFFICER.

I DON'T UNDERSTAND.

TO PROTECT THE GUMP CHARITIES, INC. I'VE DECIDED TO ENROLL A PRIVATE ARMY OF WHICH I SHALL BE IN SUPREME COMMAND.

BUT WHAT DO YOU KNOW ABOUT MILITARY TACTICS - THE ONLY WARLIKE TRAINING YOU HAVE HAD IS WATCHING DEPARTMENT PARADES.

I KNOW HOW TO YELL "FORWARD AND HALT" - AND ALL ANY GENERAL HAS TO DO IS USE THOSE TWO WORDS - AT THE RIGHT TIME AND PLACE - AND HE'LL MAKE NAPOLEON LOOK AS PEACEFUL AS A DOVE IN A NEST OF EAGLES.

FRANKIE FRISCH, who spent the summer trying to make Cardinal Case forget Rogers Hornsby, was runner-up in the award with 44 votes. Hornsby was third with 34, and the Cubs' own Charlie Root was fourth with 44 votes.

WRITERS VOTE PIRATES' STAR MOST VALUABLE

Frisch Placed 2d; Root Fourth.

BY EDWARD BURNS.
Paul, older of those two famous Wanner boys of Pittsburgh, Pa., and Ada, Okla., yesterday was proclaimed the most valuable player in the National league, thereby winning himself more fame, a league medal, and \$1,000 in gold.

The Pirates right fielder, through a vote of 78 out of a possible 80, stepped up alongside Lou Gehrig, winner of the honor in the American league. But Paul does better than Lou. Lou got homage but no medal and nothing in gold coin or other specie.

Although Paul's second full season in the big show was played this year he led the league in hitting and also won the season's league mark in triples. He was high in driving in runs - most of them scored by his left brother, Lloyd - and his work in the field and on the bases was far above the average. As a result his selection by the league committee, composed of one baseball writer in each National league city, was no surprise to followers of baseball.

The contest was conducted for the National league by Bert Whitman of Boston, president of the Baseball Writers' association. The ballots counted 10 points for first place, 9 for second, etc., and were cast by James C. O'Leary of Boston, Thomas Haden of Brooklyn, Frank Graham of Cincinnati, James R. Harrison of New York, Stoney McMillin of Philadelphia, Ralph H. Davis of Pittsburgh, James Crisler of Chicago, and Ed Kemer of St. Louis.

When the Pirates played their last series in St. Louis last summer six hundred men, women and children, a big percentage of the population of Ada, invaded St. Louis, each displaying a large banner inscribed "Ada, Oklahoma, Home of the Wanner Brothers." All who could get accommodations at the Pirates' hotel did so, and none would enter the dining room until Paul, Lloyd and Ada had finished their meal. A sister had gone in. The folks in Ada probably will take that medal away from Paul and install it in a municipal museum.

According to dispatches from Ada, Paul received news of the honor with great satisfaction, but announced he "didn't figure he had reached the peak" and that he is sure he'll do better next season. Since completing a five year's vaudeville tour with Lloyd, the batting champ has been spending his time in the open, hunting and fishing. His and Lloyd's services as valets and valets, respectively, have been booked heavily throughout Oklahoma by charitable organizations engaged in raising Christmas funds.

Came to Pirates in 1925.
Wanner is 24 years old. His first professional baseball engagement was in 1921 with San Francisco, where he was named a pitcher, but landed on the bench when he developed a sore arm. The following season he was placed in the outfield and batted .334. In 1923 he batted .401 and was grabbed by the Pirates.

Detroit A. C. Auction Bridge Players Win Title Meet

Members of the Detroit Athletic club's auction bridge team can drink each other's health in solid gold cups every time they cross the river to Windsor, for after the three day battle of spades, hearts, diamonds and clubs, the D. A. C. team won the national championship in the first annual tournament of the American Auction Bridge League. The tournament, held at the Hotel Sherman, ended in the small hours of yesterday morning.

Trophy to Winning Team.
Richards, captain of the winning team, is the head of a public accounting firm in Detroit and Lightner is a stock broker. Culbertson makes his living teaching bridge and Von Zedwitz is an Austrian problem man. The Cleveland A. C. team was made up of E. C. Wolfe, H. B. Todd, Omar Mueller and M. W. Kattner.

Gulping and Galloping Add to Pegler's Golfing Score

BY WESTBROOK PEGLER.
[Chicago Tribune Staff Service.]
New York, Dec. 4.—Your correspondent notes in a magazine devoted to golf a scurrilous article concerning his golf, and as one who has become imbued with a love of fair play, civility and sportsmanship at the ring-side, your correspondent trusts that the editor of the magazine will yield to the promptings of his better nature and make amends.

In polo golf or galloping golf the contestant does not walk but runs, making all shots while in transit and this naturally causes some disturbance of one's aim. One can't fiddle or twiddle. One gallops up to the ball, strikes a weed killer out of the quiver and takes a paste. There is a penalty of two strokes for pausing and one for pausing. Or, the contestant, at his option, take a penalty of 15 yards instead, which amounts to the same thing. Except that not-

Heilmann, with 398, Leads American League Batters

American League official batting averages for the 1927 season give the honor to outfielder Harry Heilmann of the Detroit team, a right handed batter, with a mark of .398 in 141 games. Heilmann made a slow start, but once he got going he set a fast clip and wound up the season with a spurge of slugging to beat out Al Simmons of the Philadelphia team.

Heilmann led in home runs, with 66, but not in total bases batted, that honor going to Lou Gehrig. Ruth scored most runs. George Slaughter of St. Louis led in stolen bases with 27. The batting leader of the previous season, Manush of Detroit, was way down in the list of hitters.

The New York Yankees as a team were the batting leaders. The White Sox led in fielding as a team, with a slight margin over New York. The Gehrig set a new record for batting in runs with his total of 175. Ruth continued to draw most bases on balls. The official averages:

BERLENBACH AND DELANEY DRILL HARD FOR BATTLE

Ring Rivals Toil in Gym; Fight Friday.

BY WALTER ECKERSALL.

Jack Delaney, who retained the light heavyweight championship in fight in the heavyweight division, arrived in Chicago yesterday to resume training for his ten round decision fight with Paul Berlenbach at the Coliseum on Friday night.

The former holder of the 175 pound crown did not lose much time to get down to work. Following his arrival, Jack took a long walk and then visited the Mullen gymnasium where he will do all his training. After a light lunch, Jack returned to the gymnasium where he had three rounds with Charley Belanger, the Canadian light heavyweight, and three more with Jerry Brown, the local colored 175 pounder. In both bouts, Delaney's hard right hand punch was always in evidence.

Berlenbach Shows Skill. Berlenbach also showed his wares to the spectators. Berly boxed three rounds with Jimmy Mahoney and put in a fifteen round decision to Paul Brown, punching the bag and working with the weights.

Friday night's fight will be the third meeting of this pair of famous light heavyweights. In 1925, Delaney lost a fifteen round decision to Paul Brown, and on July 16 of last year Jack reversed the decision in the same number of rounds. Both were great fights and indications are the one on Friday night will be just as hotly fought. Berly showed in his recent bout with Mickey Walker that he can take a lot of punishment.

Urban vs. Chester Tonight. Red Urban, the California southpaw who has won two decisions over Wolfie Langford, and Lew Chester of New York will be the principals in the boxing show at White City tonight. They will box eight rounds and weigh 140 pounds at 3 o'clock this afternoon.

Chester is a vicious right hand puncher who shoots his blows to the body and head. He is aggressive. Urban uses his right hand effectively in jabbing, and crosses his left to the head for scoring punches. Red cannot punch as hard as Chester but expects to win the fight on points.

Devy Adams and Jackie Brennan, lightweight, will be the principals in the night round semi-final. The other boys will bring together Frank Brown and Young Dencio, Ralph Medina and Jerry (Red) Dolan, Mike McLaughlin and Jack Penn and Mike Ballantine and Tommy Lane.

MILLS GRIDDERS BEAT MERRIMACS 140 IN PRO GAME

The Mills football team triumphed over the Merrimacs, 14 to 0, yesterday afternoon in the semi-final round for the championship of the Midwest league. Lamont returned to the winners' lineup and featured for his club. The victors staged a great all around game. Lineup:

Demetral and Hanson in Mat Bout Tonight

Jimmy Demetral of Madison, Wis., and George Hanson of Oklahoma will clash in the feature match of the 2024 Coast Artillery's second series of elimination wrestling bouts at Broadway armory tonight.

The rival grapplers are middleweights, both seeking a chance for a match with Johnny Meyers for the world's championship. Capt. B. Fishmalyan, matchmaker for the north side regiment, announced yesterday that he will seek a match for the winner with Meyers.

Two light heavyweight matches are on tonight's card. Lou Talaber, former middleweight champion, who has outgrown that class, meets Soldier Harry Nixon, U. S. army champion from Fort Meyer, Va., in the semi-windup. Tony Haidich, the Fortage Park favorite, clashes with Gus Johnson in the other 175 pound bout.

Zack Malkov, who has won honors as an amateur wrestler, will make his first professional appearance as a middleweight, meeting Alla Hansen of Argo, better known as George Peters, in the opening bout.

DRURY ELECTS TALBOT. Springfield, Mo., Dec. 4.—(Special.)—Tom Talbot, Drury college quarter back, was elected captain of the 1928 football team at the annual meeting of the letter men.

Br-r-r! The Weather Man says "Warmer" for today, but it was comfortable even yesterday with one of our Winter overcoats to help.

For you who want a luxuriously warm dress coat, nothing handsomer than our Montagnacs—elsewhere they cost up to \$150, but we think \$105 a fairer price, and we know there's no better quality than ours.

Silk-lined dress coats, velvet collars, \$95 to \$75.

Big, husky ulsters, of rough and ready Shetlands, \$80.

And, of course, the always-reliable, ever-popular Scotch Mist; sturdy Scotch chevrons in cheery patterns with style to match. Wetproof, too, should it snow, rain or hail; \$95 to \$75.

I'm getting mine with a pipe and P. A.

HAVE you never bent over a tidy red tin and caught that marvelous P. A. fragrance? Only a great tobacco could smell as good as that. You prove how good it is on the very first fire-up. What a taste, Men!

Cool as an immigration officer. Sweet as getting in. Mild and mellow as you expect a smoke to be, yet with that full-bodied flavor that makes every puff a pleasant experience. I wish I could put the taste right on your tongue, but you'll have to do that.

P. A. in a pipe is cool and long-burning, right to the bottom of the bowl. This one brand is bought by more men than any other

tobacco in the world. There's only one way to account for that—P. A.'s quality!

The sooner you get started, the better. A load of P. A. in the bowl of your pipe will be a load off your mind. And I don't mean that for any wise-crack. No matter what your present program is, try Prince Albert on the word of a friend. I'm telling you straight, you'll make no mistake.

More for your money in every way—TWO full smokes in every tin.

PRINCE ALBERT

BETTER DEMAND ADVANCES GRAIN AS WEEK CLOSES

BY CHARLES MICHAELS.

A decidedly improved tone exists in the grain trade in Chicago for two important reasons. One is the advance of practically \$2,000 in Board of Trade membership last week to \$10,000, the highest since May, 1926, and within \$1,100 of the record level made at that time. This is due to a realization that Chicago Board of Trade membership have an intrinsic value in its property, the land being worth practically \$10,000,000, while the membership of the exchange is 1,358.

"Another factor that has brought more cheerfulness and bullishness to the trade is the advance in prices with the close of the highest of the week and the best in some time. Trading has increased, with total sales of all grains last week of \$77,300,000, compared with \$44,467,000 the previous week and \$43,000,000 the last year. Wheat sales increased over 17,000,000 bu., although falling almost 100,000 bu. below last year, while corn sales of \$4,740,000 bu. increased over \$1,000,000 for the week and \$7,000,000 bu. over a year ago.

Prices advanced and closed at around the best of the week, with wheat up 1/4¢, corn 1/4¢, and oats 1/4¢. Even in provisions there was a better tone, with lard 7/16¢ higher and bellies 3/16¢ higher, while short ribs finished 1/16¢ lower to 1/16¢ higher than a week ago.

Bull Market On Corn.

A bull market is on in corn, with prices up around 50 from the recent low point made after the issuance of the harvest government report in November. All the constructive influences that have been apparent to close observers for some time past appear to be coming to the front and are being given important attention. More general confidence has been in evidence and those who have opposed an upward trend in values have turned to the bull side.

December corn closed Saturday at \$1.40 1/2, March \$1.40 1/2, May \$1.40 1/2. Prices for the week follow:

Increased interest in oats. Speculative buying has come into oats and prices have moved up 5/16¢ from the season's low. Shortage in supplies, liberal consumption, and high cash prices have been the important factors. There has also been a belief that oats are selling relatively low as compared with corn, but only recently has the speculative trade recognized the situation.

December closed Saturday at \$1.10 1/2, March \$1.10 1/2, May \$1.10 1/2. Prices for the week follow:

	December	March	May
Mon.	1.10 1/2	1.10 1/2	1.10 1/2

Europe's rice crop in twenty-three countries is estimated at 113,475,000 bu., or 1,461,000 bu. less than estimated a month ago, and compared with 123,450,000 bu. in 1926 and 234,200,000 bu. in 1925. Supplies in United States have been reduced and there is a quiet absorption by exporters.

Shortage in covering December have advanced prices from a discount a week ago to 1/16¢ to only 1/16¢ at the close last Saturday, December 3, finishing at \$1.10 1/2, March, \$1.10 1/2, and May, \$1.10 1/2.

PROVISION PRICES HIGHER

Hogs and cured product rallied late in the week and closed around the best prices after being lower in the early days. Trade sentiment has improved and the cash demand for meats is larger.

Lard stocks decreased heavily last month, with total supplies at western points 25,774,000 lb., compared with 31,414,000 lb. a month ago and 26,486,000 lb. the last year, but they were almost 16,000,000 lb. larger two years ago.

Stocks of meats of 163,120,000 lb., compared with 144,128,000 lb. in 1926. Supplies there was a decrease for the month of 21,944,000 lb., against 12,322,000 lb. the last year, the largest reduction for November since 1919, when it was 26,770,000 lb.

Hog supplies for this week are to increase and will largely exceed last year's. Prices for the week follow:

NEW FORD CAR

exceeds all expectations

Official announcement of new model last week created unusual interest throughout entire country

THE new Ford car has been on the market only a few days, but it has already created unusual interest throughout the country. Millions of people got the full details of it last week for the first time and were delighted with the story of its beauty,

speed, comfort, safety and low price.

All day long and far into the night, great crowds gathered in hundreds of Ford salesrooms from Maine to Florida and from New York to San Francisco. Never has such interest been shown in a new car. Never has any new car so far exceeded expectations.

People knew that Ford was making a new car. They knew it was a good car. They had read announcements about it. But they had no idea it would be a car like this. Their quick appreciation of it is shown by the record-breaking sales.

Greatest day in the history of the automobile industry

Thousands upon thousands of orders for the new Ford car have been received since last Friday. These and the advance orders placed with us by motorists even before the car was officially announced, will keep the entire Ford plant working day and night for weeks to come.

Such figures are a clear and unmistakable reflection of the value that has been built into the new Ford car. It is, without question, the outstanding purchase of all time in the light-car field.

Until you see the beauty of the new Ford car—ride in it—know the thrill of driving it easily and safely

NEW FORD TUDOR SEDAN

An example of the fine coachwork of the new Ford cars. New military-type sun visor and with crown roof. Narrow pillars and new door construction give unusual vision. Both front-seats fold forward, giving easy access to rear seat. Ample space between seats. Your choice of four colors—an unusual feature in a low-price car. \$495 (F.O.B. Detroit)

through thickest traffic or step it up to sixty and sixty-five on the open road, you cannot begin to appreciate the extent of the many mechanical improvements embodied in its construction. It is difficult to believe that so much speed, power, beauty, quiet, comfort and safety can be had at such a low price. It would be impossible if this new car were made by anyone but Ford.

Only Ford could sell such a fine car at such a low price

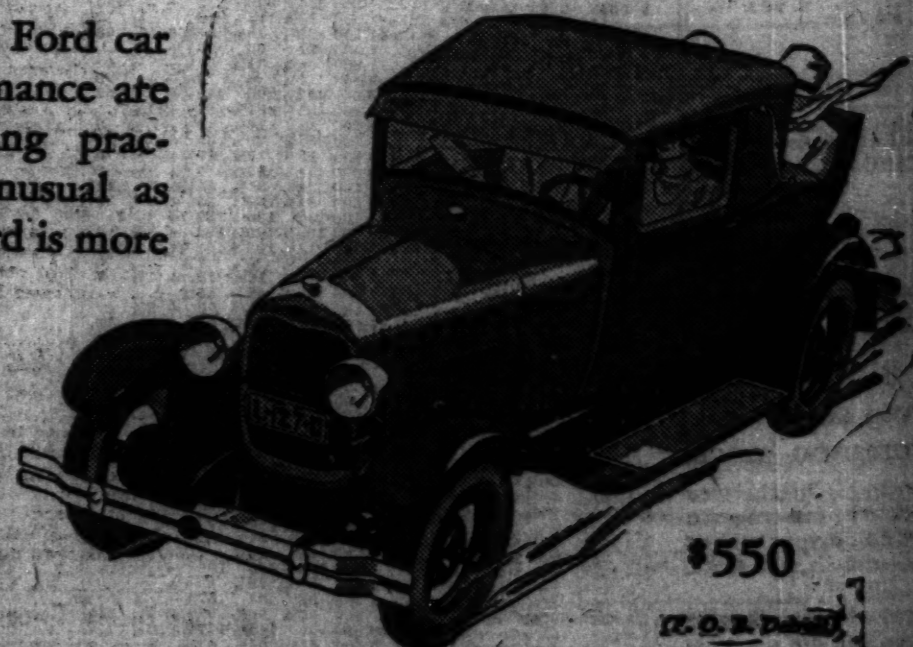

The low price of the new Ford car and its exceptional performance are the result of manufacturing practices and economies as unusual as the car itself. The new Ford is more than a new automobile. It is a new idea in modern, economical transportation.

By all means, take a little while today to learn about this new automobile. You will know that there is nothing quite like it anywhere in quality and price.
